			<u>RATE ONLY</u>

Please note the following:-

- 1) Our prices include delivery to the accessible site but exclude unloading.
- 2) Validity until 29 June 2020.
- 3) a) Please note that Class B8STD denotes our Standard Class B Grade 80 (Min Prestress = 5.0N/mm²).
b) For 6m lengths : 15% increase on the above rate.
c) For 9m lengths : 8% increase on the above rate.

Our Ref: HQ/S/079/2020

- 4) The above products are manufactured generally in accordance with the manufacturer's Technical Brochure.
- 5) Some of the advantages are as follows:-
- a) Higher strength concrete (grade 80, 90 and 100 concrete).
 - b) The high concrete density offers high resistance against corrosion from mild sulphate attack and seawater.
 - c) Absence of torsional cracking due to the geometry of pile section.
 - d) Consistent quality under factory conditions.
 - e) Ready stock availability, thus cutting down casting and piling time.
 - f) Manufacturing length ranges from 6m to 46m, thus giving flexibility in length combinations.
 - g) Other advantages as per attached brochure

Should you require any further clarification, please do not hesitate to contact us again.

Thank you.

Yours faithfully
