

CREATING A KNOWLEDGE SHARING AND LEARNING ENVIRONMENT THROUGH COPS

Sr ROZNITA BT OTHMAN

Mesyuarat Ketua Jurutera Elektrik

Port Dickson

5 February 2015

What I will cover

- What is Communities of Practice (CoP)
- Cultivating JKR CoPs
- An Overview of JCoP
- JCoP survey findings
- Approach to sustain CoPs

What is a
CoP?

Groups of people

shared interest, purpose, or practice

often **collaborate** via web sites

**share ideas and
knowledge** in several ways

COMPARISON BETWEEN COP, WORK GROUP, PROJECT TEAM AND INFORMAL NETWORK

	What's the purpose?	Who belongs?	What holds it together?	How long does it last?
Community of practice	To develop members' capabilities; to build and exchange knowledge	Members who select themselves	Passion, commitment, and identification with the group's expertise	As long as there is interest in maintaining the group
Formal work group	To deliver a product or service	Everyone who reports to the group's manager	Job requirements and common goals	Until the next reorganization
Project team	To accomplish a specified task	Employees assigned by senior management	The project's milestones and goals	Until the project has been completed
Informal network	To collect and pass on business information	Friends and business acquaintances	Mutual needs	As long as people have a reason to connect

JKR CoPs – strategic positioning

Peer networks of practitioners **within JKR** who **help each other** to perform better by sharing knowledge and experience.

Through this **collaborative environment**, **new knowledge** is created and will help spark innovation

The heart of a CoP

Community

*- its membership, the
relationships and Interactions*

Domain or context

- its identity and focus

Practice

- its methods, knowledge and expertise

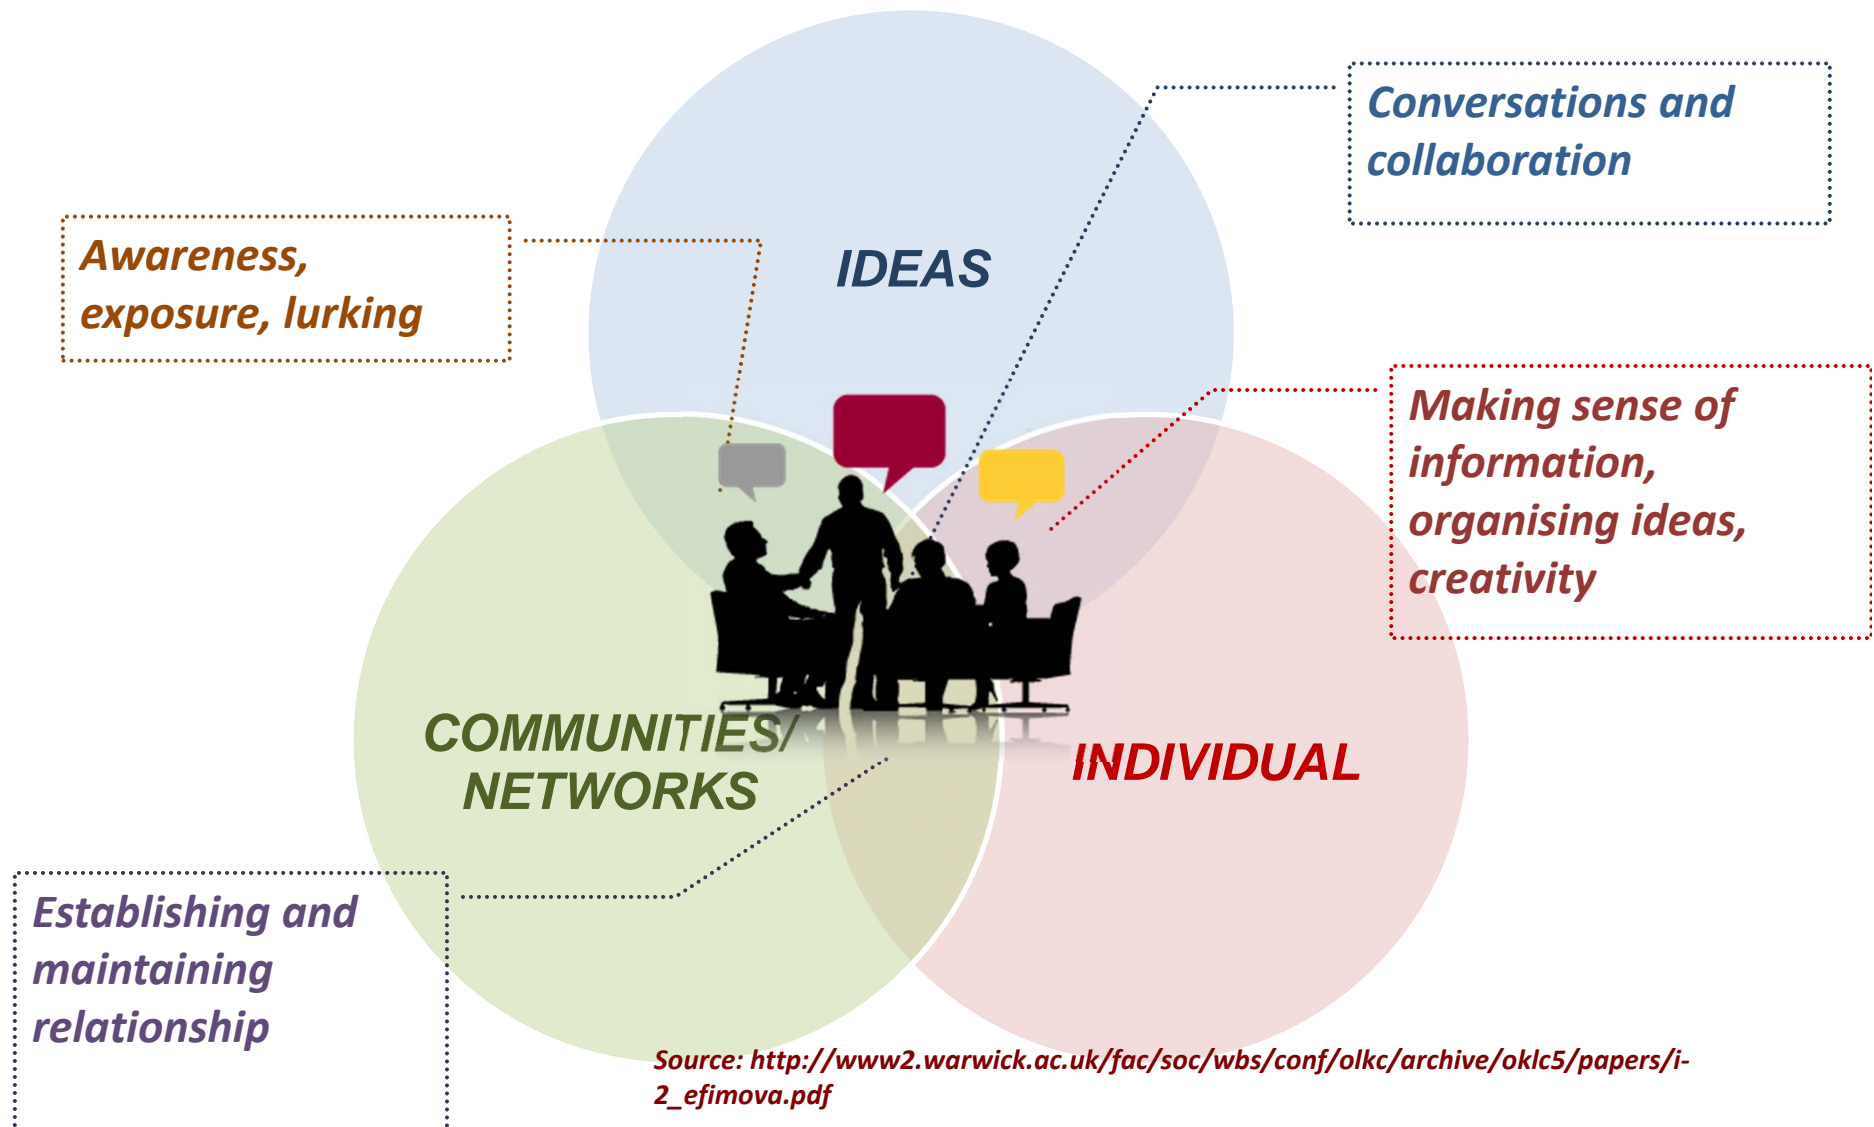

Value

it brings to its members

Willingness

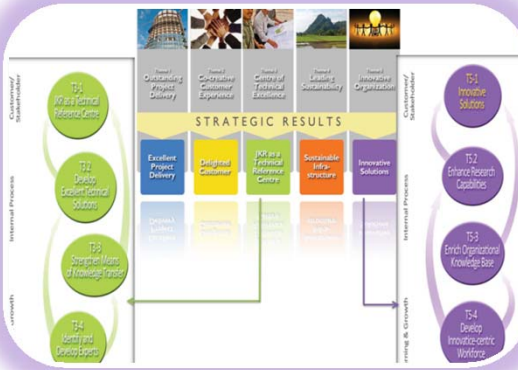

of its members to contribute and share their knowledge and expertise

Linking CoP to Innovation

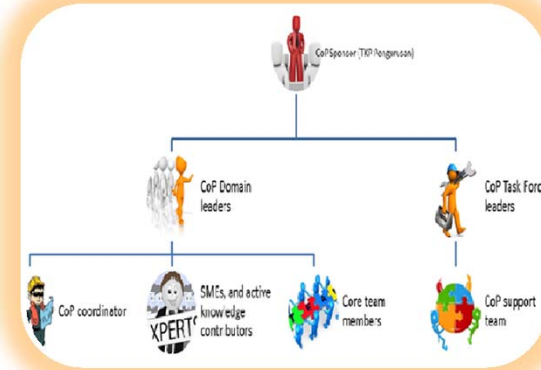

What we did

Alignment to JKR Strategic Framework

Roadmap and milestones

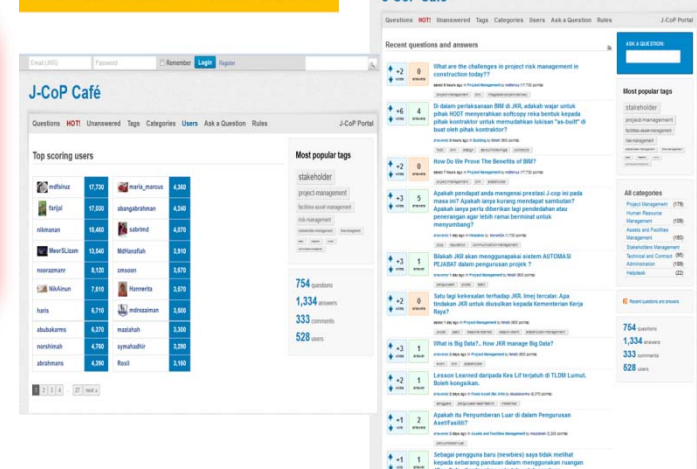

Structure, roles & responsibilities

- DOMAINS**

MAKING IT HAPPEN- The CoP roadmap

JKR as a Learning Organisation

Seminar on CoP for Top Management and Pengarah JKR and CoP Launch on 25 November 2013

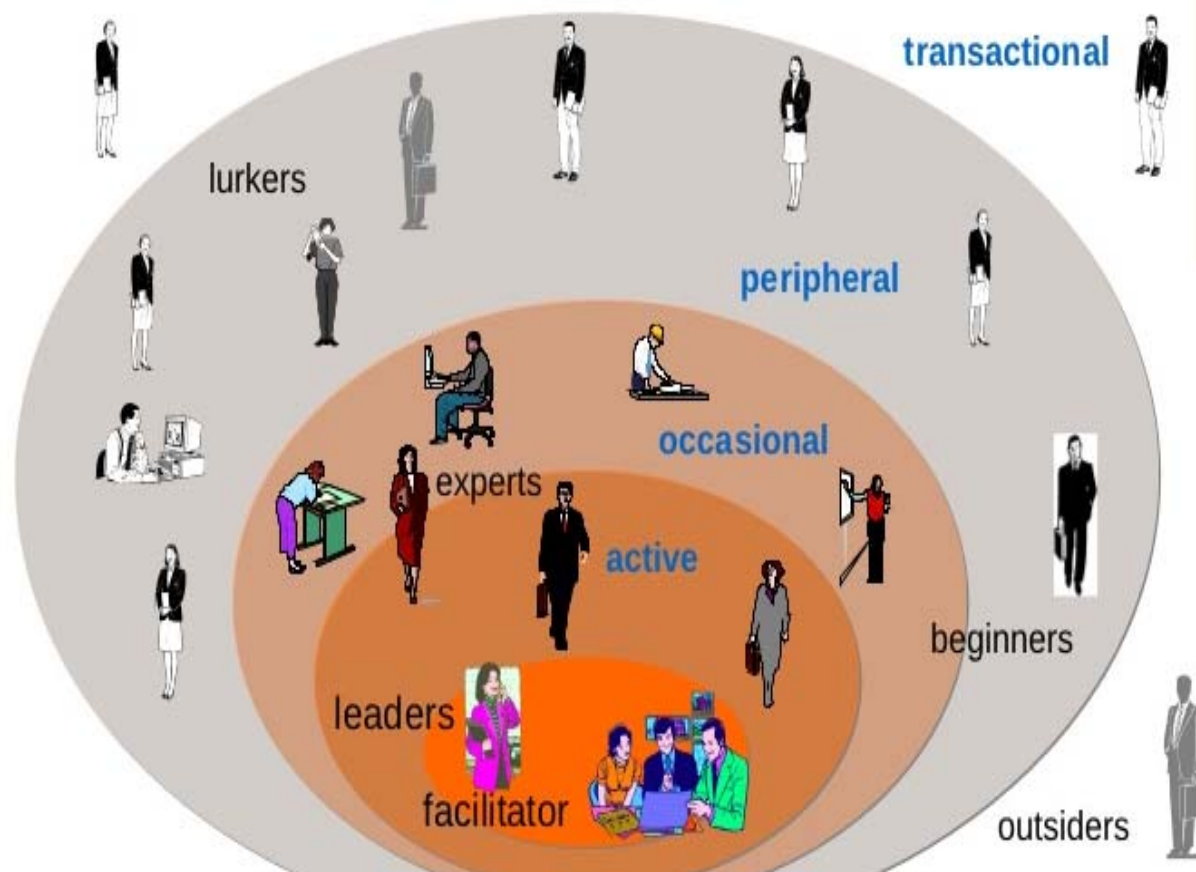

JCoP is still at its
infancy stage

JKR CoP members and roles

Membership Life Cycle for Online Communities

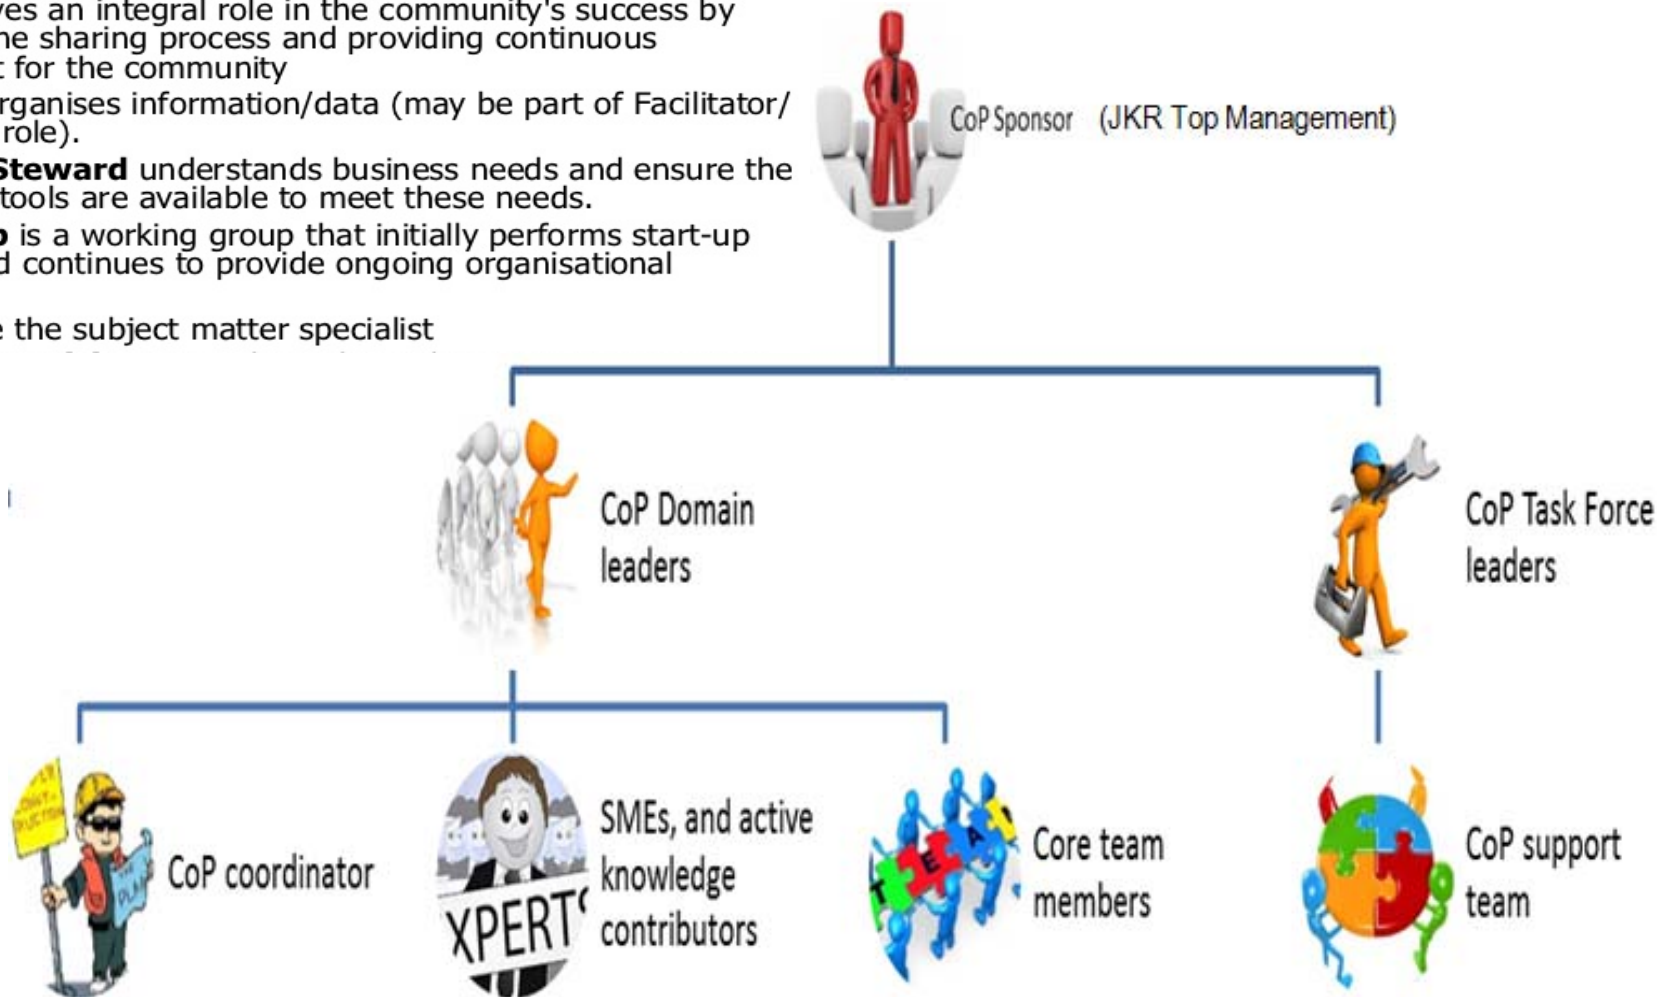

From <http://blogs.zdnet.com/Hinchcliffe>

JKR CoP Structure, roles and responsibilities

- **Champion/Sponsor** is able to envision the services of a CoP over time, and should have a sense of how the CoP can interact across the organisation
- **Facilitator/Coordinator** consulting, connecting, facilitating, helping, guiding.
- **Leader** serves an integral role in the community's success by energising the sharing process and providing continuous nourishment for the community
- **Librarian** organises information/data (may be part of Facilitator/Coordinator role).
- **Technical Steward** understands business needs and ensure the appropriate tools are available to meet these needs.
- **Core Group** is a working group that initially performs start-up activities and continues to provide ongoing organisational support.
- **Experts** are the subject matter specialist

JCoP

“Connecting People the BEST Way”

- collaborative tool enables people to share data, information and knowledge in real time.
- facilitate exchange of ideas and solutions as well as track members' participation

Keretakan tembok

+5
votes

asked Mar 25, 2014 in Structure by Masbura (170 points)

Bangunan asal sekolah ini empat tingkat,dan hanya satu tangga disediakan.kemudian,tangga tambahan dibuat pada bangunan tersebut.sekarang,ada keretakan diantara bangunan asal dengan tangga tambahan tersebut.gambar disertakan.

structuralcracks forensicinvestigation remediation/solution

commented Apr 1, 2014 by Rendi (52,740 points)

Dinding untuk koridor perlukan stiffener dan dowel bar. Begitu juga dinding tangga baru dengan blok sekolah, jika tidak disediakan stiffener + dowel bar, bermaksud dinding tersebut bergantung harap kepada sambungan mortar dan berat sendiri (self weight) dan berisiko kepada horizontal loading. La pelajar / murid sekolah berisiko-celakaan (Bengunau) antara satu sama lain pada dinding tersebut. Untuk info, minimum requirement bagi horizontal loading ini boleh diujuk dalam msla 4 BS2099.

Sinkor tangga baru dan blok bangunan sememangnya tidak ber sambung (structurally independent) sebagaimana dijelaskan oleh enik Hafiz.

Selain juga seharusnya dibuat kepada semua sambungan antara slab tangga baru dengan lantai koridor pada setiap tingkat, kemungkinan ada yang retak banyak dan ada juga sedikit pada sambungan antara tangga baru dan blok sekolah. Diikuti pecahan mortar yang jatuh boleh menodakan kepala pelajar / murid yang melalui di kawasan tangga baru tersebut.

Punca kenapa berlaku "gap" tersebut perlulah diketahui supaya pembaikan dibuat tidak berulang. Sekiranya ada dewan RPD / Pengatur / Guru Besar supaya ambil tindakan segera bagi elak persepsi kurang baik dari ibu bapa / masyarakat setempat, dinding dipecahkan sebahagian kecil sahaja yang berhampiran blok sekolah. Drill masuk dan masukkan rebat sebagai stiffener dan sediakan dowel bar. Perbetulkan kembali construction joint.

Sekadar pandangan saya, terima kasih.

Table 4 – Minimum Horizontal Lateral Load for Pangsa, Bantam and Biskutrack, etc.

WHAT WE NEED!

- COMMITMENT FROM SMEs
- SUPPORT FROM SENIOR AND TOP MANAGEMENT
- OVERCOME KNOWLEDGE SHARING BARRIERS - FEARS, COMMUNICATION (WRITING) SKILLS, ASKING PROBLEM, MISTRUST
- MODEL/ENCOURAGE KNOWLEDGE SEEKING ATTITUDE

What we learned

1. Push and Pull tactics – which is better?
 - Knowledge sharing vs knowledge seeking
2. Technology can only support behavioural change
3. Leadership commitment is KEY
4. Governance is essential for sustenance of CoP
 - Clear management expectation
 - Monitor, report, support, train

TAKING A DIFFERENT APPROACH

STRATEGIES	WHAT WE ARE DOING	WHAT WE NEED TO DO
COMMUNICATE	<ul style="list-style-type: none">• create awareness• promote through talks, roadshows, courses	<ul style="list-style-type: none">• issue mandate via KPKR instruction• seek cooperation from senior management to ensure compliance
ENGAGE	<ul style="list-style-type: none">• give encouragement• conduct workshops with SMEs and JCoP users• give recognition via gamification system• present certificate of appreciation and gift to top contributors	<ul style="list-style-type: none">• incentivise on bigger scale• set KPIs for SMEs• reflect knowledge contribution in annual performance appraisal• criteria for promotion/other rewards
MONITOR	<ul style="list-style-type: none">• observe user interactions and behaviour• track via google analytics based on simple metrics	<ul style="list-style-type: none">• track achievement• regular reporting• control

To attain higher levels of performance for the organisation, the culture of sharing knowledge should be aligned with the communities of practice concept

- ❖ The **success of CoPs** does not only depend on the organisation's strategy, but also on the **motivation** and **willingness** of employees to participate in and to contribute to these communities (Pastoors, 2007)

- ❖ The **performance of CoPs** is dependent on the ability of community members to continuously build and access the community memory through **frequent informal interactions**, facilitating the **effective creation and transfer of valuable tacit and implicit knowledge** within the community (Lave & Wenger 1991)

Thank you for your attention

Do USE JCoP

The BEST is yet to come!!
