PRIMER

Required simple surface preparations for better adhesion such as hand scrubbing or wire brushing on existing rust, mill scale or old paint film. Also function as anti-corrosion primer.

Feltec® Zinc Chromate Primer G288
Ferrous & Non-Ferrous Metal

Feltec® Red Oxide Primer G388
For Ferrous Metal

Feltec® Etching Primer E500

Suitable for most metal substrate. Highly recommended for Galvanised Iron (GI) and Aluminium substrate. Good adhesion and antirust properties. Can be over coated with emulsion or solvent based paint.

FELTEC® MICACEOUS IRON OXIDE PAINT

9811 Medium Grey

A special Alkyd-based coating, pigmented with micaceous iron oxide. Provides better protection for iron and steel surfaces. Highly recommended for steel structures, storage tanks, pipes, bridges and grills.

FELTEC® ALUMINIUM FINISHING

MO 250 Aluminium

FELTEC® EPOXY COAT

A two pack, tough and chemical resistant finish for industrial floors, steel structure and interior masonry especially in clinical environment.
