PREFACE

This is the first revision of Arahan Teknik (Jalan) 6/85 on 'Guidelines for Presentation of Engineering Drawings'. Although it is basically similar in essence and format to the one published in 1985, various modifications have been made to suit current JKR requirements.

These guidelines should be followed for the presentation of engineering drawings for all road projects under Cawangan Jalan, Ibu Pejabat J.K.R.

This Arahan Teknik will continue to be updated from time to time and in this respect, any feedback regarding these guidelines will be most welcome. All comments should be sent to Cawangan Jalan, Ibu Pejabat JKR, Malaysia.
