CERTIFICATION REQUIREMENTS

- Have attended and passed training courses approved by the Asset Management Council
- Must demonstrate knowledge in at least 7 of the 13 core Competency Sets relevant to Associates.
- Expected to have knowledge in at least 2 more of the remaining 4 Competency Sets

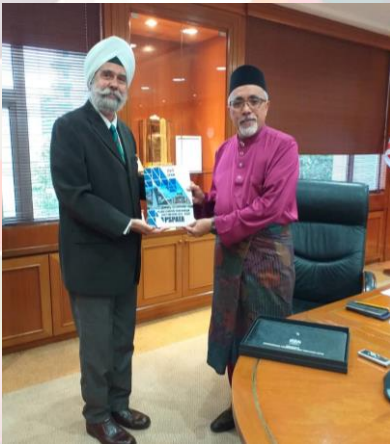

OBJEKTIF

- 1 Define asset management and understand the value asset management can deliver to organisations.
- 2 Identify the principles/fundamentals that underpin asset management.
- 3 Identify the elements of an asset management system including a typical set of processes and disciplines that support asset management.
- 4 Identify available asset management tools and techniques that are applicable within the organisational context.

CERTIFICATION PROCESS

- Select **7 competency sets** that you feel you can support by verifiable evidence
- Write a **description of evidence** for each of the Competency Sets that you are claiming
- Provide **examples** to demonstrate that you have the knowledge required for each Competency Set selected, and that your Asset Management knowledge has been applied
- A **Referee's name and details** are to be provided for **each** example described so that the Competency Set can be affirmed
- Provide a **CV and a role description** for current job and details of relevant qualifications.
