ROAD SIGNAGE

By : OD PAINTS SAND PAINTING PRODUCT

ABOUT NON STICK ROAD SIGNAGE

Illegal sticker on road signage has been an eyesore to our local community as well as local government. Our government spend a lot of time and money to remove illegal sticker on road signage in various places. Some of the road signage was fully pasted by illegal sticker and this prove to be dangerous to road user as they can't recognize signage of no entry, one way, addresses and not to mention police or ambulance in need of road signage to guide them to specific place during emergency. In year of 2013, OD Paints produce its own TPPS non stick paint for road signage, to prevent future illegal sticker on road signage. TPPS Non stick paint proves to be useful on road signage where permanently prevent sticker stick on it. Apart from all this, Non stick paints have a durability of 10 years which save the cost of removing illegal sticker and maintenance free on road signage.

AWARDS AND RECOGNITIONS

OD PAINTS EXHIBITION

OD PAINTS had received a new product awards from PAM (Persatuan Architect Malaysia), Eco Label and Non reflective index from SIRIM.
