BORANG SERVIS BANK BATERI

No. Dokumen : Lampiran 3 -
JKR.SHS.01

No. Keluaran : 03

No. Pindaan : 00

Tarikh : 15 Februari 2015

Muka Surat : 1 / 3

A. MAKLUMAT PEPASANGAN

Projek

Premis Pemasangan

Battery Location: _____

Battery Details: _____ Cells Type: _____ Norminal Specific Gravity: _____

Battery Charger: _____ Manufacturer: _____ Model: _____

Are Specific Gravity readings temperature corrected? ☐ Yes ☐ No

Visual Inspection

Indication (provide comments for each "No" answer)

YES

NO

Positive plates dark brown/free from sulfate crystals?

Negative plates light gray?

Positive plates and internal hardware free from flaking?

Sediment space free from unusual deposits?

Terminal post seals OK?

Connections free from corrosion?

Electrolyte level between MAX and MIN?

Cells jars in good condition?

Rack in good condition/free from corrosion?

Measure and record the voltages of the battery cells and Specific Gravity
