40 years maica

An Introduction

Maica Corporation Sdn Bhd, which was incorporated in 1982, is the authorised sales distributor for products of Maica Laminates Sdn Bhd. A dynamic company with nine sales and distribution branches throughout Malaysia and Singapore, Maica Corporation Sdn Bhd supports Maica Laminates Sdn Bhd's rapidly expanding business in Malaysia and Singapore.

Maica Laminates Sdn Bhd, the headquarters for Maica Corporation Sdn Bhd, is backed by 40 years of experience in manufacturing and supplying interior decorative High Pressure Laminates (HPL) and Compact laminates for export as well as local market in Malaysia. "MAICA" the brand name under which Maica Laminates Sdn Bhd range of products are marketed, is a household name.

Maica Laminates Sdn Bhd received The Industry Service Excellence Award and The Interior Products Award from the Malaysian Institute of Interior Designers for product innovativeness and second prize for Open Booth Category at the Interiors Malaysia 2008 (Malaysia's Interior Lifestyle Showcase).

Maica Corporation Sdn Bhd's manufacturing plants in Butterworth and Lunas which are equipped with machineries utilising the latest cutting edge technology, adhere to quality procedures closely to ensure product quality meets the stringent requirements of international standards.

Maica Laminates Sdn Bhd has been certified ISO 9002 since 1995 and upgraded to ISO 9001:2000 in year 2003. Maica Laminates Sdn Bhd's product quality is assured as products conform to Japanese International Standard (JIS K6902) and European Standard (BS EN 438).

MAICA products which are available in a wide range of designs, colours, sizes, thickness and finishes, also come in Laboratory Grade.

n & Mission

ration Sdn Bhd's Vision

oration Sdn Bhd's company vision is to be the High Pressure Laminate industry's design trendsetter, and to be the laminate supplier of choice for dealers and contractors.

ration Sdn Bhd's Mission

oration Sdn Bhd's mission is to provide better products and services to our customers. Maica Corporation strives to make a difference in our interiors by delivering quality products, providing the latest trend in colours in the market, and ensuring timely products to customers.

Maica Corporation Sdn Bhd's Organisation

Maica Laminates Sdn Bhd's sales and distribution branches, which is under Maica Corporation Sdn Bhd, is led by the General Manager. There are nine sales and distribution branches located in Butterworth, Petaling Jaya, Ipoh, Melaka, Kuantan, Johor Bahru, Sabah, Sarawak and Singapore.

The Branch Managers report to the General Manager.

Each Maica Corporation Sdn Bhd branch has its own Branch Manager, Sales Executives and supporting staff who are well positioned to serve customer's requirements in their respective areas.

inge of available colours and designs, thickness can be referred to in the Maica minate catalogue. Please contact our ion Sdn Bhd sales and distribution ologues and samples.

Compact Laminate

MAICA Compact Laminate

Compact laminates are excellent choices for your interiors – they merge beauty with practicality perfectly.

Compact laminates which come in a variety of solid colours and designs, enhance and enliven an interior. Not only are they visually pleasing with their sleek, smooth lines, Compact laminates are sturdy and can withstand high wear and tear from daily use.

MAICA Compact laminates are recommended for use on vanity tops, display counters, work tops, shelves, storage areas, wall panels, lockers, washroom cubicles, furniture and applications in laboratories, schools, libraries, shopping malls and other work surfaces.

MAICA Compact laminates are also available for surfaces with special needs for example surfaces which require chemical resistance properties.

MAICA Laboratory Grade Compact laminates are available for surfaces which require durability with higher resistance to damage caused by certain chemicals. MAICA Laboratory Grade Compact laminate is recommended for applications in schools, research and development centres, quality testing centres and medical facility laboratories.

Note :

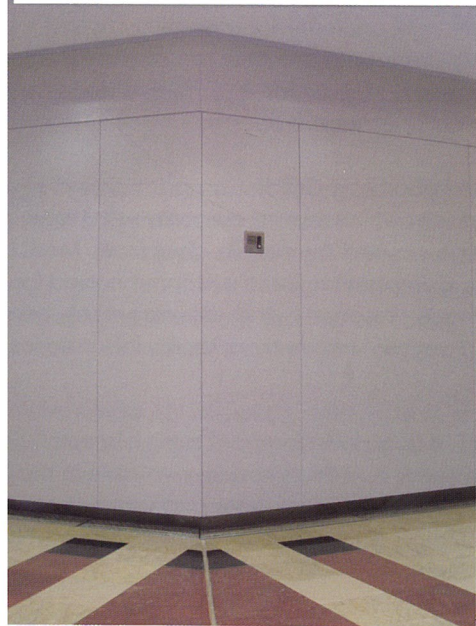

Details of available Compact laminate colours and designs, finishes, sizes and thickness are available in the Maica Compact catalogue. Catalogues and samples can be obtained from Maica Corporation Sdn Bhd sales and distribution branches.

Wall Lining & Cladding System

Wall Lining & Cladding System

colours and designs in interiors make a big difference when it comes to creating the required ambience for a particular interior. One of the most important element which contributes to the success of an interior, other than the lighting and colour, is the interior wall. A change of colour and design can transform the whole atmosphere of an interior from a serene and meditative one, to that of a vibrant and stimulating one.

High Pressure Laminates and Compact Laminates can be used as wall linings to intensify and enhance the beauty of interiors. Both MAICA High Pressure Laminates and Compact laminates come in a wide range of pleasing colours and designs, as well as in different finishes for you to choose from, to turn your creative ideas into reality.

Another alternative to wall linings are wall cladding systems. Simply change the wall cladding pieces of the cladding system to achieve the ambience of your preference.

Wall lining and cladding are good choices to consider in environments requiring durability without compromising aesthetic qualities. Both wall linings and claddings can be used in malls, clubhouses, medical facilities, work areas, children's play areas, schools, kindergartens and any other areas of high traffic or frequent usage. Most splashes, stains, and scribbles can be easily removed with a wipe using a soft cloth and gentle cleaner, thus maintaining its neat and clean appearance at all times.

Compact Cubicle System

Compact Cubicle System

Compact Cubicle Systems offer solutions for three systems for washrooms, lockers, and shower cubicles.

Compact Toilet Cubicle Systems (TCS) for available in Supremo, Vemo, Umo, and system. Each system comes with high accessories to match.

Simple elegance, try our range of Solid sophisticated and classy look is your range of Woodgrain designs. Prefer elegant, contemporary? You may like our Modern Design patterns or even our Metal finishes.

To have your own designs adorning the wall, then it is possible with maiConcept. Feel free to talk to us - we'll be happy to help in any way we can.

On Maica Compact Cubicle Systems in Maica Compact catalogue, which is available from Maica Corporation Sdn Bhd sales and distribution branches.

MAICA maiConcept

High Pressure Laminate & Compact Laminate

Illuminate your imagination and liberate your inspired designs with customised digital imprints. maiConcept customised digital imprints allow freedom of creative versatility.

Immortalise sweet memories in pictures, cards, notes, letters or display official company logos, themes or designs by imprinting them in customised maiConcept High Pressure Laminates or Compact laminates. Create your own design signature.

maiConcept can be applied either vertically or horizontally, which makes it an excellent choice for wall linings and claddings, partitions and furniture. maiConcept customised digital imprints can be applied on coffee tables, work desks, cabinets, wardrobes, meeting rooms, conference rooms and ballrooms.

Creative customised digital imprints can help to elevate an otherwise ordinary interior to one with an exceptionally exclusive appeal.

While you have the option to customise your interior designs with MAICA maiConcept products, you can also choose to opt for predesigned maiConcept designs and patterns to decorate your interiors.

Note :

Predesigned maiConcept patterns can be referred to in Maica High Pressure Laminate catalogue, which is available from Maica Corporation Sdn Bhd sales and distribution branches.
