

construction in challenging environments

Pacific Association of Quantity Surveyors (PAQS)
12th Congress: Construction in Challenging Environments

Session 15 – Wednesday, June 18, 2008
10:20 a.m. – 12 noon

Zhang Zhen Ming
Cost Engineer
Cost Engineering Association of ZiaMen City
China

Presentation: Examining China's "Lowest Bidder Wins" System

Mr. Zhen Ming Zhang, a senior QS, has more than 30 years' experience in the cost management field. He is now employed by the Cost Engineering Association, Xiamen city, P. R. China.

Wen Xin
Senior Engineer and Cost Engineer
Railway Engineering Cost Management
China

Presentation: Harnessing 21st Century Technology for Effective Cost Engineering

Mr. Wen Xin, (1970~), senior engineer and cost engineer; I graduated in 1993 from Changsha Railway Institute. I am currently Chief Engineer of Railway Engineering Cost Management, P. R. China. I have been engaged in theoretical study and practical work on cost engineering for 15 years, having a solid theoretical foundation and practical experience. The essay entitled "Risks of Labor and Mechanical Cost of China-aided Projects Abroad and Countermeasures Thereof" submitted to the Appraisal and Selection Activities of the Fourth National Engineering Cost Essays was judged one of the excellent papers.
